EDUCATION

Government Polytechnic Ahmedabad Ahmedabad, IN
Diploma in Computer Engg. (CGPA = 9.50) *2021 – 2024*

Sankalp International School *[Secondary Education (Percentage = 85)]* Ahmedabad, IN

EXPERIENCE (WORK HISTORY)

Backend PhP Developer July 2023 – Sept 2023
Government Polytechnic Ahmedabad *Ahmedabad, IN*

- Collaborated with professors to align academic and administrative needs.
- Engineered a web portal to streamline institute content management, including calendars, events, activities, and faculty details.
- Achieved 30% reduction in the workload of the computer department by developing a user-friendly web portal, facilitating efficient website management without direct database modifications.
- Stationed at Government Polytechnic Ahmedabad(An Educational Institute), contributing to institutional digital transformation : Government Polytechnic Ahmedabad

Java Trainee Sept 2022 – Oct 2022
PrometheanTech *Gandhinagar, IN*

- Acquired in-depth knowledge of Core Java principles, including Object-Oriented Programming (OOP) and Collection Frameworks.
- Gained expertise in connecting Java applications to MySQL databases using JDBC.
- Designed and developed user interfaces for Login/Registration panels and a small cafe billing window using SWING GUI Builder.
- Created a comprehensive Super Market Billing System project, utilizing Swing, JDBC, MySQL, email, and PDF generation libraries.

Hackathons

FundNest (DUHacks 3.0 By GDSC Of DDU) | *Flask, MongoDB, PyMongo, Git* 2024

- Developed FundNest, a web app for the startup community to facilitate funding, mentorship, and raw material procurement.
- Enabled founders, investors, and sellers to register on the platform, enhancing network opportunities.
- Integrated video meeting scheduling for founders and investors, streamlining the funding and mentorship process.
- Provided a marketplace for sellers to manage products and founders to purchase necessary raw materials, increasing resource accessibility.

Institute Transfer Portal (New India Vibrant Hackathon) | *PhP, PHPMailer, MySQL, Git* 2023

- Developed a web application for student college transfers under the CTE, streamlining the process.
- Enabled students to submit transfer requests online, eliminating the need for in-person visits to colleges and admission offices.
- Automated document submission and approval workflow, reducing processing time.
- At first step request goes to principal and if the request is approved then it will go further at CTE Member
- Implemented email and dashboard notifications to keep students informed at every approval stage.
